Garage Floor Limited Warranty

Armortech Premium Coatings Inc., herein referred to as APC, shall warrant its garage floor coating system against peeling under tires (hot tire pick up) for a period of one year from its purchase date, providing its application has been in accordance with APC's application instructions, recommendations, procedures, and that the warranty registration is completed within 10 days of product arrival date. The warranty period is one year from shipping date with registration. This warranty applies to peeling of the coated surface under tires/ parking area caused as a result of product failure only. The sole, exclusive, and maximum liability of APC shall be to furnish and replace the appropriate quantity necessary for repair of affected area. The warranty replacement product does not include shipping and or handling charges.

The warranty set forth above is in lieu of all other warranties, expressed or implied, including without limitation, any warranties of merchantability or fitness for a particular purpose.

Customer agrees that APC's exclusive remedy, and the entire liability of APC with respect to specified coatings are set forth in this agreement. APC shall not be liable to customer for any damages, including lost profits or other incidental damages arising out of its use of the floor coating or the breach of said warranty. APC shall not be responsible for any labor or labor-related charges, and specifically warrants that our only liability is replacement of the product for the affected area. APC's warranty shall be limited to replacement of a complete like quantity of original purchased materials, or at its option, credit towards another APC product.

Warranty claims for failures within 14 days of application must supply batch numbers from tops of containers from epoxy/resin A & B Components for warranty consideration. This warranty shall be governed by the laws of WA and any actions or litigation thereof shall be filed and conducted within the state of WA.

APC, at its request, may require surface testing to be performed at purchaser's expense and for the providing of photographs and/or other documentation including proof of purchase.

CONDITIONS NOT COVERED UNDER WARRANTY

- Improper hardening is not covered under the warranty as it is caused by improper mixing or high moisture levels in the floor.
- Failures from hydrostatic pressure (moisture under the concrete) which can cause bubbling, blistering, peeling, and softening.
- Mixing and or application issues, such as the product reaching its pot-life prior to application, where the material begins to get hard or smoke in the bucket.
- The product not curing due to improper mixing.
- Failure from adhesion loss to another previously coated or sealed surface.
- Oils, contaminants, and other sub-surface conditions present in the floor.
- Acids or alkali's present in the floor
- Deficient concrete (loose, cracked, broken, or spalled concrete) with reduced adhesion characteristics or deficiencies.

- Wear Resistance.
- Custom flake colors or mixes from our standard offerings.
- Application problems due to uneven concrete, porous concrete and inconsistent concrete absorption rates.
- Conditions that affect appearance such as gloss loss or tire marking/stains.
- Commercial Applications.
- Applications with chemicals or salts present.
- Yellowing of epoxy that was applied without a proper protective topcoat.
- Armortech Premium Coatings Inc. shall not be responsible or in any way liable if the product cracks, heaves, or delaminates due to substrate settling, water intrusion, ground movement, earthquakes, impact damage, hydrostatic pressure, acts of God, or negligent acts of others. Any staining, scratching, chipping, or cracking of the product which may result from such movement, intrusion, or negligence is not warranted.

This warranty is non-transferable.
